**Technical Requirements**

Introduction: This section outlines the technical requirements for Eric Von (Solo) live performances.

Stage Plot: Below is a visual representation of our preferred stage setup:

[Included is a simple diagram showing the placement of instruments, microphones, amplifiers, etc.]

IPAD

2 XLR
FOR STEREO OUTPUT

2 XLR FOR HEADSETMIC
1 XLR FOR ACOUSTIC

Input List:

- Lead Vocals: Crown CM311A microphone Dual XLR Output
- Acoustic Guitar: Taylor 214ce-K DLX
- Ipad: 2 XLR for Stereo Output

Monitor Mix Preferences: I require one monitor mix:

1. Lead Vocal, Background Vocal, Acoustic guitar, iPad Stereo Output

Sound Requirements:

- EQ: Prefer a balanced mix with emphasis on vocals
- Effects: Light reverb on vocals, minimal effects on instruments
- Overall Sound: Clean and dynamic with clear separation between instruments and vocals

Load-In and Set-Up:

- Load-in time: 2 hours prior to soundcheck
- Parking: Require close parking for gear unload
- Assistance: Need assistance with loading gear onto stage and setting up backline equipment
